

PERIPHERAL iPod/HD/SAT/BLUETOOTH and Auxiliary Adapter VEHICLE APPLICATION GUIDE

Peripherals/iSimple Gateway iPod/HD Radio interface provides a brand new listening experience on the factory radio in the select Model/Year Vehicles listed below. The Gateway and Auxiliary are compatible with over 150 vehicles and because of that a specific installation harness is required. Locate your vehicle and order the item listed to the right (iPod/HD Kit or AUX Kit). The applicable harness is included for FREE. (Exceptions apply)

Discount Car Stereo.com is an [Authorized Peripheral/PAC/iSimple retailer](#); and as such all purchases made from us are eligible for full factory warranty and support.

The Gateway also supports Bluetooth with optional iSBT21. At this time only iPhones are supported (Other phones may also work but not guaranteed). Check for iSBT21 listing next to vehicles model/year.

WARNING!! At this time only the specified model & years listed herein are compatible. This guide is updated on a regular basis. Please bookmark this page.

MAKE	MODEL	YEAR	iPod/HD KIT	BLUETOOTH	AUX KIT

	Touareg with "SAT" button	2008	iSVW572*		
	Touareg No "SAT" button	2008	iSVW572*		
	Tiguan with "SAT" button	2009	iSVW571		
	Tiguan No "SAT" button	2009	iSVW572*		

VW FOOTNOTES: These are very important and should be read prior to making a purchase.

ALL- Radios MUST HAVE a "SAT" to operate in "Advanced Mode" (full text displayed on radio screen, HD radio option)

All – Radios (including Navigation Radios) without a "SAT" button operate in "Basic Mode" only (no text display, no options for HD Radio)

» Retains factory Satellite and auxiliary jacks

iSVW571- Compatible with VW radios equipped with a "SAT" button excluding Beetle

iSVW572- Compatible with VW radios **Not equipped with a SAT button** excluding Beetle

» Navigation radios DO NOT have a "SAT" button and operate the iPod in Basic Mode only (no text display etc) see below

» Not compatible with VW factory installed iPod adapter when using PGHVW3 or PGHVW2 with PGHVW2B

» When using the PGHVW3 harness the factory external CD Changer (if equipped) must be disconnected

Basic mode: This mode is available to all VW radio applications including Navigation radios and operates the iPod in CD Changer modulation
Basic iPod control (track up, track down, FF, REW) from radio, with iPod charging, No text display

Does not support HD Radio

» Keeps iPod clickwheel active (you can browse all iPod menus using the iPod clickwheel/screen)

» Same operation as Peripherals PXDP (iPod2car)

» Provides an auxiliary audio input

Note: if connecting the PXAMG-VW to operate in Basic Mode, the Factory external CD Changer must be disconnected (if present)

Advanced Mode: This mode is exclusive to VW radios with "SAT" button only (Satellite Emulation)

» Full control of the iPod (Browse by playlist, artist, album, genre, composer etc.)

» Provides an auxiliary audio input

» Support for HD Radio tuner (HD tuner is Optional and sold separately)

Power battery discharge issue has been resolved. Software .36c must be loaded to fix this issue.

***Both A and B sub harnesses are included.**
