- Careless installation and operation can result in equipment damage.

Requirement
Radio with 10-pin CD changer port and MODE button on faceplate

Fig. 1
10-pin plug

Introduction-

Many with older cars looking for a simply way to play audio devices without replacing the radio will be pleased to find this solution. The new BT2-CHRY02 module provides a Bluetooth solution for Smartphone, Kindle, Tablet with A2DP profiles. A wireless connection means no wires, clutter or complicated setup. The BT2-CHRY02 music streaming solution is applicable to select 2002-08 Chrysler rounded face radios with **"MODE" button** and 10-pin CD port (See **Fig. 2**). In addition to streaming, the BT2-CHRY02 also support AVCRP profile which allows the radio and/or steering wheel "SEEK" buttons to change tracks while also keeping their eyes on the road.
Warning!! The radio in all compatible vehicles, must have "MODE" button on faceplate and 10-pin port on the rear.
The BT2-CHRY02 does not support phone calls.

See Frequently Asked question at the end of this guide for details.

Radio 10-pin socket

Installation

Radio removal required to gain access to the connectors. Vehicle specific radio removal is not part of this guide; however, these may be available upon request.

1. Connect module 10-pin plug (See **Fig. 1**) to radio 10-pin socket, (See **Fig. 2**) |*Any factory option (e.g. satellite radio, CD changer etc.) must be permanently disconnected. Purchase our BTA-CHRY02 to retain factory option.*
Pairing

Pairing process varies between devices but basic steps are the same. Pairing is done upon initial install and will not have to be repeated.

1. Turn on the ignition and radio
2. From your Bluetooth enabled device, turn the Bluetooth ON and search for Bluetooth devices.
3. When a list of available Bluetooth devices appears on your Bluetooth device, select "DisCarSt" (See **Fig. 3**)
4. Confirmation "tone" is heard on car speakers.
5. The unit will automatically enter the BT Audio source and you can now start streaming audio from your Bluetooth enabled device.
   Note: If the mobile phone doesn't support SSP (Simple Secure Pairing) Profile, please enter the pass code of "0000"

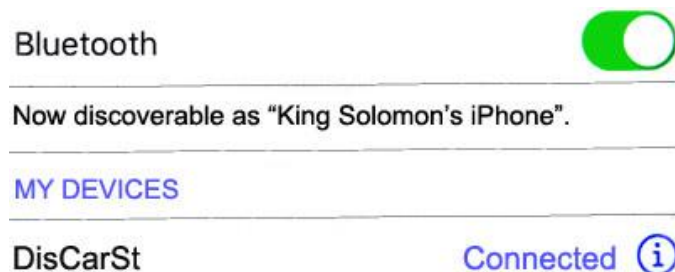

Bluetooth

Now discoverable as "King Solomon's iPhone".

MY DEVICES

DisCarSt   Connected ⓘ

Fig. 3

Bluetooth operation

1. Turn on the ignition and radio
2. Press the radio "**MODE"** button to enter "Bluetooth" mode.
   Radio screen will change to: Disc X Track X as seen in **Fig. 4**

Fig.4

3. Launch streaming application (e.g., Spotify, Apple music etc.) on smart device
4. Application should now be heard on car speakers otherwise verify audio device volume is set to 90% or higher
5. To track up; tap the radio **SEEK >** button (See **Fig. 5**)
6. To track back; tap the radio **< SEEK** button (See **Fig. 5**)

Fig. 5

Note: Bluetooth range is approximately 20 ft. Ensure smart device is within range

If successful go ahead and reinstall radio

Frequent ask questions & troubleshooting

1. **Does the BT2-CHRY02 work on all Chrysler 8-pin radios?**
   NO; Works only on radios with 10-pin CD port and MODE or AUX button on faceplate.
   Warning: Also compatible with Chrysler export radios (e.g., Europe, Australia etc.) such as the **RAD** sales code has a **CD-C** button and 10-pin CD port. Older radios with "MODE" button and 8-pin port requires our **BT2-CHRY**

2. **My radio has a CD-C button and 8-pin connector. Will the BT2-CHRY02 work?**
   NO; Chrysler radios with CD-C button and 9-pin connector requires our BT2-CHRY98 or BT3-CHRY98

3. **Can I use the BT2-CHRY02 to make/receive phone calls?**
   NO; The BT2-CHRY02 does not supports phone calls. Purchase our BT3-CHRY02 instead,

4. **Will I have to disconnect the remote CD changer?**
   YES, this module connects to radio 10-pin CD changer port. Any and all devices using this port will need to be disconnected.

5. **Can I use the radio buttons to control my Bluetooth device?**
   YES; Radio and/or steering wheel "SEEK" button can be used to track up/down from within playlist. You may also use smart device built-in controls and display to access music apps etc. Use radio or steering wheel volume controls to set playback level.
