- We do not accept any responsibility for vehicle damage or personal injury resulting from the installation of this product.
- Careless installation and operation can result in equipment damage.

Requirement

Radios with CD/TAPE button and 8-pin socket

Introduction:

They are literally thousands of older Jaguars on the road that still has the original radio in place that unfortunately lack support for Bluetooth, but thanks to the BT2-JAG97 these radios can be upgraded to support Bluetooth music streaming. Installation could not be simpler and only requires connecting the module to the 8-pin CD changer port on radio and be on your way to streaming navigation, audio books and other important applications on the car system!

Because this module uses the "CD" port, factory CD changer (if present) must be disconnected.

Warning!! All compatible radios must have a "CD/TAPE" button on face and 8-pin socket at the rear. Does not support hands-free calls.

Installation:

1. Remove radio to gain access to the connector.
For help removing radio, click link below:
<https://www.youtube.com/watch?v=vpAldr6V3iE>
2. Locate radio 8-pin connector and disconnect any accessory that may already be connected (See Fig. 2)

3. Connect the module 8-pin plug (See Fig. 1) to 8-pin socket on radio (See Fig. 2) or to the 8-pin socket in luggage compartment.

Fig. 1

Fig. 2
8 pin socket

4. Tuck and secure any extra wires away from moving parts

Pairing:

Pairing process varies between devices but basic steps are the same. Pairing is done upon initial install and will not have to be repeated.

1. Turn ignition and radio "ON"
2. From your Bluetooth enabled device, turn the Bluetooth ON and search for Bluetooth devices.
3. When a list of available Bluetooth devices appears on your Bluetooth device, select "DisCarSt" (See Fig. 3)
4. Confirmation "tone" is heard on car speakers.
5. The unit will automatically enter the BT Audio source and you can now start streaming audio from your Bluetooth enabled device.
Note: If the mobile phone doesn't support SSP (Simple Secure Pairing) Profile, please enter the pass code of "0000"

Fig. 3

Bluetooth operation

1. Turn ignition to "ACC" and turn on the radio
2. Press the radio "TAPE/CD" button to enter "Bluetooth" mode.
3. Open streaming application (e.g., Spotify, Deezer, Apple music etc.)
4. The application should now be heard on car speakers otherwise check volume on audio device and/or radio
Alert: For best results; set audio device volume to 85% or higher.
5. To track up; tap the radio **SEEK > >|** button
6. To track back; tap the radio **|<< SEEK** button (See Fig. 4)

Frequently ask questions & troubleshooting

- Does the BT2-JAG97 work on all Jaguar radios?**
NO; The BT2-JAG97 works on select 1992-97 Jaguar CD changer controlling radios. CD changer controlling radio will have a "TAPE/CD" button on face AND **8-pin socket at the rear**. The compatible radio face will look like that of **Fig. 5**

Fig. 5

- My vehicle also has a 6 CD changer, will the BT2-JAG97 work?**
The 6-disc CD changer must be disconnected for the BT2-JAG97 to function as described. To retain the 6-disc CD changer; purchase our [BTA-JAG97](#)
- Can I use the radio buttons to control streaming?**
YES; the radio or steering wheel "SEEK" buttons can be used to track up/down from within a playlist.
- Will I be able to make phone calls using this module?**
NO; the BT2-JAG97 does not support hands-free calls. See our [BT3-JAG97](#) instead.
- What happens if a call comes in while streaming?**
Streaming will mute, Answer call from handset as you would in portable mode. Streaming resumes upon ending call.

- Can I connect module to the CD changer plug in luggage compartment?**

YES; If vehicle has original CD changer or wired for it; the module can be connected to CD changer plug in luggage compartment. CD changer (if present) must be disconnected and will no longer function.
