BT3-GM1

BLUETOOTH HANDS-FREE, STREAMING INSTALLATION GUIDE FOR 1995-05 GM

Created August 16, 2024
Revised October 28, 2024

PRODUCT SAFETY & DISCLAIMER

READ ALL INSTRUCTIONS CAREFULLY BEFORE INSTALLING. FAILURE TO DO SO MAY CAUSE PERSONAL INJURY OR DAMAGE TO PRODUCT AND/OR PROPERTY

- This installation guide is provided as a GENERAL installation guide, some vehicles vary and may require additional steps. We do not accept responsibility for third party labor charges or modifications. Exercise due-diligence when installing this product.
- We do not accept any responsibility for vehicle damage or personal injury resulting from the installation of this product.
- Careless installation and operation can result in equipment damage.
- To ensure proper use, please read through this manual before using this product. It is especially important that you read and observe Warnings and Cautions in this manual.

Requirements:

1995-05 Theftlock AM/FM/TAPE and 2000-05 AM/FM/CD radios with AUX button

Introduction:

Your older GM still runs great but does not support modern media formats. If the original radio is still installed and are looking to upgrade to Bluetooth; the BT3-GMI is for you! The BT3-GMI supports Bluetooth hands-free calls, audio streaming module and charging to the radio in select 1995-05 AM/FM/TAPE radios and 2000-05 AM/FM/CD radios and replaces separate/slave or remote player (if present). A wireless connection means no wires, clutter or complicated setup. All the user has to do is connect module to radio 9-pin port, pair smart device and enjoy tons of applications including Pandora, Apple music and more on the stock car system.

Separate Single CD, Cassette player or CD changer must be disconnected.

To retain separate player, purchase our [BTA-GMI](#) instead.

See **Frequently Asked question** at the end of this guide for details.

Installation: (To AM/FM Theftlock radio)

Warning: Not applicable to 1995-05 Buicks, Cadillac's and Oldsmobile 32-pin connecting radios. (See Fig. 1), 32-pin radios require our [BT3-GM32](#).

Fig. 1

1. Remove factory radio from dash (Vehicle specific radio removal procedures are not part of this guide but may available upon request)
2. Disconnect factory 9-pin plug from radio (See Fig. 2)

Note: Radio 9-pin socket may be empty in which case proceed to step 4.

Fig. 2

3. **Vehicle with BOSE:** Connect factory 9-pin plug (removed in step 2) to 9-pin socket (white) on install harness (See Fig. 2)

Fig. 2

4. Connect installation harness 9-pin plug to radio 9-pin socket vacated in step 2. (See **Fig. 3**)

Fig. 3

5. Separate player (CD, TAPE or CD changer) if present; remains disconnected. **The installation harness 9-pin socket (white) remains empty except in vehicles with BOSE.**
6. Secure microphone to headliner or visor using included clip (See **Fig. 5**)
7. Route microphone cable (10 ft. long) down side pillar, under steering column and into radio cavity.
8. Connect microphone right angle plug to module "MIC" input. (See **Fig. 6**)

Visor microphone

Fig. 5

Fig. 6

9. Connect installation harness 16-pin plug (See **Fig. 7**) to module 16-pin connector (See **Fig. 8**)

Fig. 7

Fig. 8

Optional USB extension cable installation

Note: 1. Optional USB dash mount extension cable is not required for operation, however it extends USB charging port (See Fig. 11) to dashboard, glovebox etc.

2. The USB port supports charging only

1. Drill a $\frac{3}{4}$ " hole to dash or panel using a step drill bit or equivalent (See Fig. 9)
As an alternative; use the included bracket (See Fig. 14a) to mount USB without drilling.

Fig.9

2. Fish USB cable terminal (See Fig. 10) through hole created in step 1 and plug into USB port on module (See Fig. 11)

Fig. 10
USB cable

Fig. 11

3. Snap header (See Fig. 12) to surface until flush (See Fig.13)

Fig. 12

Fig. 13

Fig. 14

Tuck and secure any extra wires from moving parts and proceed to next step

Pairing

Pairing process varies among devices but the basic steps are the same. This process is done upon initial install and will not have to be repeated.

1. Turn ignition and radio "ON"
 2. From your Bluetooth enabled device, turn the Bluetooth ON and search for Bluetooth devices.
 3. When a list of available Bluetooth devices appears on your Bluetooth device, select "DisCarSt" (See Fig. 15)
 4. Confirmation "tone" is heard on car speakers.
 5. The unit will automatically enter the BT Audio source and you can now start streaming audio from your Bluetooth enabled device.
- Note: If the mobile phone doesn't support SSP (Simple Secure Pairing) Profile, please enter the pass code of "0000"

Fig. 15

** Speakerphone is possible by which the caller can be heard on car speakers.

** Optional

GM SEPARATE/SLAVE UNITS IN LOWER DASH

Fig.16

Main AM/FM radio in upper dash
(not a separate or slave player)

Bluetooth operation

1. Turn ignition to "ACC" and turn the radio ON
2. Press "AUX" button on radio (See Fig. 16 to enter Bluetooth mode.

Fig. 16

3. Open streaming application (e.g., Spotify, Deezer, Apple music etc.)
4. Selected track should be heard on car speakers.
5. To track backward press < **SEEK** or **PREV** button (See Fig. 15)
6. To track forward press the **SEEK** > or **NEXT** button. (See Fig. 15)

Fig. 15

7. Place a test call or ask someone to call
8. To accept or reject phone call, press < **SEEK** or **PREV** button to accept call or **SEEK** > or **NEXT** button on radio to decline (See Fig. 16)

Fig. 16

9. Use radio volume knob to adjust phone call playback level.
Note: Some smartphones include settings for call volume. Please ensure this setting is not turned "OFF".

Frequent asked questions & troubleshooting

- 1. My 1997 Silverado has an AM/FM/CD player in upper dash and also has a separate TAPE player below climate controls; will the BT3-GMI work in this instance?**
NO. 1995-99 CD player radios are not supported. This restriction applies only to 1995-99 CD radios. 2000-05 AM/FM/CD player radios are compatible. Purchase our [BTA-GMI](#) to retain separate tape player.
- 2. My vehicle has a separate cassette player in lower dash; will the BT3-GMI work?**
YES; but the separate cassette (See **Fig. 16**) must be disconnected and will no longer play.
- 3. My vehicle has a separate single CD player below climate controls; will the BT3-GMI work?**
YES; but the separate CD player must be disconnected and will no longer play.
- 4. I would like to have music streaming in my truck, and also keep the separate player in lower dash; do you offer a solution by which I can keep the separate player?**
YES; Purchase our [BTA-GMI](#) which requires and retains separate/slave unit in lower dash (See **Fig. 16**)
- 5. When I decide to remove the BT3-GMI, will I have wiring issues?**
NO; the BT3-GMI plug-n-play harness does not interfere with factory wiring integrity. Once disconnected the system will function as it did prior.
- 6. How is streaming sound quality?**
Sound quality is very good and without static or interference provided vehicles electrical systems are up to standard.
- 7. Can I use the BT3-GMI to make/receive phone calls?**
YES; the BT3-GMI supports Hands-free calls and audio streaming (A2DP)
- 8. Does the BT3-GMI work with the AM/FM/CD and AM/FM Tape radio?**
YES. Compatible with 1995-05 AM/FM/TAPE radios and 2000-05 AM/FM/CD radios. Not compatible with 1995-99 AM/FM/CD radios.
- 9. My vehicle has a separate TAPE player in lower dash; will the BT3-GMI work?**
YES; but separate player (e.g. TAPE etc.) must be disconnected and will no longer function. Purchase our [BTA-GMI](#) to retain separate player.

- 10. My vehicle has separate single CD player below climate controls; will the BT3-GMI work?**
YES; separate player (e.g. Single CD or multi-disc CD changer) must be disconnected and will no longer function. Purchase our [BTA-GMI](#) to retain separate player.
- 11. How good is sound quality?**
Sound quality is very good.
- 12. My vehicle has two separate units; one in lower dash and a CD changer in armrest. Will the BT3-GMI work?**
YES, however both separate units must be disconnected and will no longer function. Purchase our [BTA-GMI](#) to retain separate player.
- 13. If in the future I decide to remove the BT3-GMI, will I have trouble with car wiring?**
NO; the **BT3-GMI** plug-n-play does not interfere with factory wiring integrity. Once disconnected; everything will work as it did prior.
- 14. I purchased the BT3-GMI but could not install it because my radio has a "SOURCE" button and 32-pin connector. What are my options?**
The 32-pin radio on many Cadillacs, Oldsmobile's and Buicks is not compatible. Purchase our [A2D-GM32](#) instead.

*Slave player (CD or TAPE) in lower dash or below climate controls NOT required for the BT3-GMI to function.
