HANDS FREE, MUSIC STREAMING INSTALLATION GUIDE FOR BECKER RADIOS AND SEPARATE CD CHANGER

Created August 16, 2024

Revised: September 12, 2024

PRODUCT SAFETY & DISCLAIMER

READ ALL INSTRUCTIONS CAREFULLY BEFORE INSTALLING, FAILURE TO DO SO MAY CAUSE PERSONAL INJURY OR DAMAGE TO PRODUCT AND/OR PROPERTY

- This installation guide is provided as a GENERAL installation guide; some vehicles vary and may require additional steps. We do not accept responsibility for third party labor charges or modifications. Exercise due-diligence when installing this product.
- We do not accept any responsibility for vehicle damage or personal injury resulting from the installation of this product.
- Careless installation and operation can result in equipment damage.

Requirement

Functional CD changer in trunk or hatch

Introduction

Safety comes first when you're on the road, so having an intuitive and easy to use Bluetooth kit is essential to reducing driver distraction. The BTH-BKRCD (formerly A2DIY-BKRCD) works with virtually all Bluetooth enabled phones and sounds great whether using for mobile conversations, streaming music and retaining use of required CD changer. **Keep vehicle, radio and CD changer** while enjoying Bluetooth features only available on newer cars.

Note: A functioning CD changer required and at least one disc must remain in magazine. If vehicle does not have a functioning CD changer, purchase our [A2DIY-BKR](#) instead.

Installation

Warning: Most Becker radios are coded and will not operate without the code. Do not proceed to step 4 if radio code is not available otherwise radio will not operate upon reconnection.

1. Remove radio from dash to gain access to the connectors. A set of removal tools (See **Fig. 1**) is required.

Fig. 1
Radio removal tools

Fig. 2

2. Slide tools into radio slots (**51**) with straight edge facing away. Withdraw radio by pulling outwards. With radio removed, press retaining spring to release keys. See **Fig. 2**.
For detailed radio removal instructions, click [here](#).
3. Disconnect BLUE plug from radio **C-3** chamber (See **Fig. 3**) (pinch blue tab to release)

Fig. 3

Radio connectors

4. Connect BLUE plug from step 3 to BLACK connector on audio harness (See Fig. 4)

Fig. 4

audio harness

5. Connect BLUE plug from audio harness (See Fig. 4) to radio C-3 chamber vacated in step 2.
6. Disconnect 8-pin plug from chamber "A" (See Fig. 5) and connect to power harness matting 8-pin connector (See Fig. 6)

Fig. 5

Fig. 6

Power harness

7. Connect power harness 8-pin plug (See Fig. 6) chamber "A" on radio vacated in step 6.
8. Secure visor microphone (See Fig. 7) to visor or headliner using included visor clip (See Fig. 8)

Fig. 7
Microphone

Fig. 8
Visor clip

9. Route microphone right angle plug (See Fig. 7) down pillar, under driver kick panel into radio cavity.
10. Connect microphone to module "MIC" input jack (See Fig. 9)

Fig. 9

Be cautious not to damage or cut microphone cable.

Wireless remote control

Use included wireless remote control to track up/down, answer/reject calls, adjust device volume all while keeping eyes on the road.

Installation:

Attach button to steering wheel or dashboard using included double-sided tape. The 433 MHz frequency means the remote is ready for use once battery has been installed.

Note: For transport purposes, the battery has been installed upside down. Please re-install battery (CR2025) label side up as seen in Fig. 10

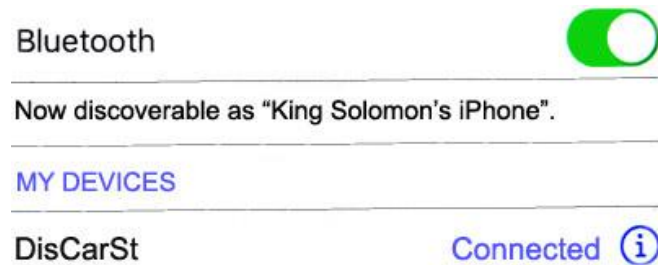

Fig. 10

Bluetooth pairing

Pairing varies among devices but basic steps are the same. This process is done upon initial install and will not have to be repeated.

1. Turn ignition and radio "ON"
2. On A2DP device: go to **Bluetooth Settings**
3. Select **Bluetooth** and enable it
4. Tap **Scan for devices**.
5. Wait for Bluetooth device name (See below) to appear and tap it. *Once paired confirmation tone is heard on car speakers*

Noteworthy: On Androids it may be possible to change device name to something of your own liking. This may not be possible on newer iOS devices.

Bluetooth operation:

1. Turn ignition and radio "ON"
2. Press CD button or button combination to enter CD changer mode
(Ensure at least 1 disc is loaded and remains in changer magazine)
3. Launch smartphone music streaming application
4. Use remote control or device built-in controls or touch screen to for track selection etc.
5. Place phone call or ask someone to call. To end call press, **Pause/Play on remote control**
6. To end call press, Pause/Play on remote control.
7. To listen to CD changer, press **Pause/Play** on remote control
8. If correct operation is confirmed go ahead and reinstall radio.

* Radio must be in "AUX" Mode

** Optional

Congratulations, you've just updated your vehicle to support new technology while preserving the original radio and dash components.
Enjoy!

The BTH-BKRCD works in vehicles with analog CD changers. Newer vehicles with fiber optic digital systems (e.g., CR23/24, PCM2+) as seen in Fig. 15 are NOT supported.

Fig. 15

Frequent ask questions & Troubleshooting

- Do I require a working CD changer for the BTH-BKRCD to work?**
YES; CD changer is required and remain fully functional. At least one disc must remain in changer magazine.
- Does the BTH-BKRCD work on all Becker radios?**
NO; Works on Becker analog radios with analog CD changers. Will not work in digital systems (e.g., PCM2+, CDR-23/24 etc.) – See Fig. 15
- Can I control Smartphone music from radio or media button?**
Radios buttons (except for volume and tone controls) do not apply, however the included remote control can be used to control media and phone calls.
- How do I listen to CD changer?**
If already in Bluetooth mode, press remote control **pause/play** otherwise Press CD or radio button combination used to access CD changer mode, then **pause/play** on remote control. To return to streaming, press remote **pause/play** again.
- Will stereo mute when I receive or make a phone call?**
This system will not mute unless radio is in "CD changer" (Bluetooth) mode. If calls are initiated or received while listening to AM/FM; the radio will not mute. User must switch to "CD changer" (Bluetooth) Mode in order to hear caller on car speakers and if necessary, switch back to AM/FM. If calls are initiated or received while streaming; playback is muted and resumes once call ends.
- How do I pair a second phone with module?**
In order to pair a second device; verify no previously paired device is connected. Once module is free, it is ready to be paired.
